

Our Vision. Your Safety

PRODUCT FILE SSP 1010

COMPONENT	MATERIAL	FEATURES
Lens	Polycarbonate	8 base, dual lens
Frame	Polycarbonate+TPE	Lens clip in frame, brow bar co-injected with cushion
Nose piece	Bridge –Polycarbonate	Integral to frame
	Nose Pad – TPE	Co-material nose piece
Temple	Polycarbonate +TPE	Standard single material spatula temple & additionally co-injected with soft cushion tip
Screw	Stainless Steel	Standard hinge screw

SPECIAL FEATURES:

*Full wrap around with 8 curved base lens provides more coverage, without the distraction of seams or traditional type side shields.

*Semi-frame & slim temple design creates a spectacle that weights only 31 grams per pair

*High impact resistance and anti-scratch lens

*Lenses provide 99.9% of UV protection

Textured features:

1. Special dual-material temples – Polycarbonate temple with ultra soft TPE tip for all day comfort ; ventilation holes provide airflow at the same time
2. Special dual-material nosepiece integral to nose bridge & frame secures the glasses to your face without slipping.
3. Special co-injected brow cushion makes exceptional comfort and protects from injury. The bulged pads on cushion surface allow air flow while wearing snugly to the face in order to minimize lens fogging

Meets

ANSI Z87.1 and CE EN166 stadards.
