

SHD 027

INDUSTRIAL RUBBER GLOVE

Features:

- Heavy duty double ply glove performs well to protect against chemical solutions of typical acid and alkaline pH--as strong as sulfuric acid and sodium hydroxide.
- Thicker gauge and longer length for maximum chemical and splash protection.
- L275-295mm, W95-110mm, Weight 75-85gsm/pair.
- Made with natural rubber glove.
- With good abrasion and tear resistance.
- Good grip, slip resistant finish on the palm and fingers.
- High level of grip in both wet and dry conditions.
- Slightly textured Palm & fingers surface.
- Dust free internal and external surface.
- Flexible design minimizing hand fatigue.
- Waterproof resist oils, acids, detergents & other chemicals.

Application areas:

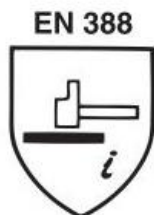

Its high durability with high tear & abrasion resistance is ideal for:

- Leather printing/dying
- Electroplating
- Agriculture
- Forestry
- Animal husbandry
- Fishery operations
- Degreasing
- Cleaning and janitorial
- Food processing and handling
- Meat processing,
- Kitchen and catering,
- General house hold use

Packing:

12pairs/pack, 20 pack in one carton
